Hazardous Area Inspection Services

Ensures every piece of equipment installed is suitable for its intended use, with recommended practice, codes, directives, regulations, and international standards

Our compliance services help to prevent catastrophic events

- Such as fire or explosions
- Damage to plant & machinery and/or owners' reputation
- We do this by eliminating or reducing the likelihood of an ignition source occurring.

Whether it is an onshore or offshore facility where hazardous substances are present in daily operations

Hazardous area inspections in the three recognized grades

- Visual Grade
- Close Grade
- Detailed Inspection

Our compliance services help to prevent catastrophic events

- We are also providing NDT and advanced NDT Services in Oil & Gas and Marine (offshore & onshore)
- Quality service and delivering reports on time to the utmost satisfaction of the customers.
